## DON'T MISS THE FIRST LASER IN COMPOSITES SYMPOSIUM NOVEMBER 22, 2017

We are pleased to invite you to the first Laser in Composites Symposium in Aachen. In collaboration with the Aachen Centre for Integrative Lightweight Production (AZL) experts are presenting latest developments and state of the art applications in laser processing of composite materials. The symposium aims to bring together specialists from laser manufacturers, process engineering and the industry to exchange the newest results and future prospects.

### Topics

- Laser Cutting and Drilling of Composites and Prepregs
- Laser Joining and Tape-laying Processes
- Process Control and Quality Assurance

### Addressee

- Specialists and Managers in Automotive Industry, Aeronautics, Electro mobility and other Fields of Lightweight Applications
- Design and Manufacturing Engineers
- Stakeholders for Laser and Machining Technologies as well as for Design and Automation

All lectures are presented in English. For more information please visit us online: [www.ilt.fraunhofer.de](http://www.ilt.fraunhofer.de).
