

AZL Technology Access Booster Package

Cost Saving Lightweight Tailgate

Unlock essential Know-How on Design,
Technologies, Materials Requirements and
the Market Trends

AZL Aachen GmbH

Excellence in Lightweight Production

YOUR BENEFITS

- **Comprehensive know-how:** Understand the technology, its applications and market potential in all facets – as insider or even without prior knowledge.
- **Neutral perspective:** The out-of-the-box view helps company insiders to review or further develop their strategies and uncover new opportunities.
- **Gain strategic action points:** Receive essential insights to make well-founded decisions for the introduction or advancement of lightweight tailgate know-how in your company.
- In a **dedicated workshop**, we address individual questions, develop a customized roadmap, and outline defined action steps for boosting your technology access.

OUR OFFER

- Workshop: An interactive and hands-on workshop with AZL experts
- Report: Comprehensive documentation 100+ pages
 - Market & technology screening incl. IP landscape info
 - Present latest design, materials & manufacturing state-of-the-art
 - Features and load cases
 - Description and evaluation of three different design concepts
 - Evaluation of KPIs
- Your investment: 15.000,00 € excl. VAT
